BACKGROUND

I started racing 6 years ago, at the age of 6. I am often the youngest racer in my class, but I accept that challenge head on and I often even grab the holeshot against racers twice my age.

I am a loyal, honest, hard-working 12 year old who balances my passion for racing with my love for learning. I'm an excellent student who enjoys being on my school's 7th grade football and basketball teams as well as participating in academic contests and 4-H. I love spending time with my friends and family and working on our farm.

In July of 2023, while attending a racing training camp, I crashed and had to have an emergency splenectomy, but I came back stronger and more motivated than ever to become the best version of myself. Of course winning is awesome, but that isn't everything. As a 12 year old, I have many years of racing ahead of me to learn, grow and represent your business. I hope you will consider me to represent your company in the 2025 race season.
